

Kaddis Manufacturing Corporation Celebrating 75 Years in Business

Rochester, New York (February 10, 2014) **Kaddis Manufacturing Corporation** is proud to announce our celebration of 75 years in business in the Rochester, New York area. In 1939, Kaddis Manufacturing started on Hudson Ave and as the business grew, the company was moved in 1969 to the current location on Patriot Way. Kaddis Manufacturing is a global supplier of Custom Precision Machined Parts. The diversity of the Kaddis equipment allows us to economically produce simple parts and the more demanding complex parts.

During our 75 year journey, Kaddis has continued to expand and improve our equipment compliment to be able to produce most machined parts that range from .040" (1mm) to 1.250" (32mm). In the 4th quarter 2013, Kaddis decided to invest in new "state of the art" CNC Single Spindle Swiss equipment.

New Equipment: Kaddis selected Tsugami CNC Single Spindle machines as the next generation equipment for Kaddis Manufacturing. We purchased (2) 20mm S206 machines and the third machine, a Tsugami 32mm B0326, is scheduled to be delivered in March of 2014.

With the CNC Single Spindle Swiss equipment added to our equipment base, we will now have the capability to produce complex parts that require close tolerances in small or large production quantities.

We would like to express our gratitude to all of our customers throughout the years that have relied on Kaddis Manufacturing's world-class quality for machined parts. Without our loyal customers, we would not have been able to reach this milestone of 75 years.

Our goal is to continue providing Quality, Delivery, and Service and to be our customers' #1 vendor for Custom Precision Machined Parts for today and in the future.

Sincerely,

KADDIS MANUFACTURING CORPORATION

James D. MacAnn
President and COO
